

PMI Wins Association Success Award

PMI's Qualifications Team has won the prestigious Association Success Award for Best Digital Transformation for its submission based on moving its entire range of qualifications online. PMI's entry, in spite of strong competition, impressed the judges by demonstrating how making this change has massively improved administrative efficiencies whilst dramatically improving the experience of learners.

PMI's Qualifications Manager, Vanessa Jackson, said: *"We are delighted to have won. This achievement cements the highly successful transition of our exams from a traditional physical format to adopting an entirely digital format. This enhances usability, security and efficiency. To have won this award strengthens our Qualifications Team's objective in ensuring that our exams are suitable for all learners."*

The competition's judges said: *"Successful transition of exams from physical to digital, enhancing usability and security and increasing efficiency, improving international reach, with a potential to generate income from the international market. Innovative idea and solution, completely breaking away from their historic way of doing things and managing to bring their members and customers on the journey with them."*

The UK Association Success Awards has been running since 2006. It is a not-for-profit programme which promotes best practice across a wide range of professional organisations.

About the PMI

The PMI is the professional body which supports and develops the experts who run UK pension schemes by delivering exceptional thought leadership, comprehensive education, advanced training, and recognised qualifications in pension management. It has the broadest skills base of pensions professionals and trustees in the UK, with more than 7,600 members dedicated to establishing, maintaining, and advancing the highest levels of pensions knowledge.

PMI members are responsible for managing and advising some of the largest institutions in the world and taking key decisions on substantial financial matters. With well over £1 trillion invested in UK pensions, PMI members have a vital role to play in shaping the nation's financial future. With 48 years of successful operation behind it, the PMI is an organisation at the cutting edge of pensions, committed to fostering industry collaboration and driving innovation to enhance retirement outcomes.
